## ORGANIZATION OF THE NATIONAL SYSTEM IN ROMANIA

The main two framework documents that organize the national system are Emergency Ordinance no. 21/2004 on the National Emergency Situation Management System, approved with amendments and completions by the Law no.15 / 2005 and the Romanian Government's decision no. 1491 / 09.09.2004 for the approval of the Framework Regulation on the organizational structure, attributions the functioning and endowment of committees and operational centers for emergency situations;

The National System is an integrated framework in which central bodies, ministries and non-governmental organizations participate in all actions to support the process of prevention and management of emergencies. The National Emergency Situation Management System establishes, organizes and monitors the management of emergency situations, assurance and coordination of human, material and financial resources.

The National System is composed of:

1. committees for emergency situations;
2. General Inspectorate for Emergency Situations;
3. professional community public services for emergencies;
4. Operational centers for emergency situations;
5. the commander of the action.

Emergency Committees are interinstitutional management support bodies and meet on a semi-annual basis whenever the situation requires, with the following components:

- the National Emergency Situations Committee;
- Ministerial committees and other central public institutions for emergency situations;
- the Bucharest Emergency Situations Committee;
- county committees for emergency situations;
- Local Emergency Committees.

The National Committee for Emergency Situations is established and operates under the direct supervision of the Minister of Administration and Interior and under the coordination of the Prime Minister. The National Committee is an inter-ministerial body made up of decision-makers, experts and specialists appointed by the ministries with complex attributions in the management of emergency situations.

The organization and functioning of the National Committee was established by the Government Decision no. 1489 / 09.09.2004.

The National Committee shall consist of:

- President: Minister of Administration and Interior;
- Vice-President: a State Secretary of the Ministry of Administration and Interior;
- members: one secretary of state from each ministry or one deputy head of each central public institution as provided in Annex no. 1 of the HGR no. 1489 / 09.09.2004;
- consultants: 1 - 2 experts and / or specialists from each ministry and central public institution provided in the same annex.

The Standing Technical Secretariat of the National Committee functions as a specialized department within the National Operational Center of the General

Inspectorate for Emergency Situations, as provided in the HGR. no. 1490 / 09.09.2004.

The National Committee ensures the fulfillment of the specific attributions regarding the achievement in Romania of the objectives of the international strategy for disaster reduction.

Ministries and other central public institutions with responsibilities in the management of emergency situations are set up and operate under the leadership of the ministers, respectively heads of central public institutions, ministerial committees for emergency situations, hereinafter referred to as Ministerial Committees.

The Ministerial Committee shall be constituted by order of the minister or of the head of the central public institution, as the case may be, and shall consist of decision-makers, experts and specialists from the Ministry's own apparatus and some of the institutions and units under its authority, with attributions in managing emergency situations.

In the composition of the ministerial committee, at the request of the respective minister, may be co-opted representatives of other ministries and institutions with attributions in the field.

At county level, county committees for emergency situations, hereinafter referred to as county committees, are formed under the leadership of the prefects. The county council is composed of the county council's president, deconcentrated, decentralized and communal household services managers and other managers of county-level institutions and companies that carry out emergency management support functions as well as managers of economic agents who, through activity specificity, are potential risk factors generating emergency situations.

The organization, the attributions and the functioning of the county committees are established by orders of the prefects. At the level of municipalities, towns and communes, local committees for emergency situations, hereinafter referred to as local committees, are formed, under the mayoral control and with the prefect's approval.

The local committee includes a deputy mayor, the secretary of the commune, town or municipality, as the case may be, representatives of the public services and of the main institutions and economic agents in the respective administrative-territorial unit, as well as managers or managers of economic agents, subsidiaries, branches or local work points, which, by their specificity of activity, are potential risk factors generating emergency situations.

The organization, the attributions and the functioning of the local committees shall be established by the mayor's order, with the prefect's approval.

The General Inspectorate for Emergency Situations, hereinafter referred to as the General Inspectorate, as a specialized body subordinated to the Ministry of Administration and Interior, ensures the unitary and permanent coordination of the activities for the prevention and management of the emergency situations.

Within the General Inspectorate, the Prevention Inspection, the National Operational Center and other appropriate structures for Emergency Situation Management are organized, with specialized personnel on risk types, in communications, informatics and public relations.

The Operational Center continuously fulfills the functions of monitoring, evaluation, notification, warning, pre-alarming, alerting and operational coordination at the national level of emergency situations.

The General Inspectorate, through the National Operational Center, ensures the permanent technical secretariat of the National Committee, taking over the permanent technical secretariat of the National Defense Committee at the date of the dismantling of the Governmental Commission for Defense against Disasters.

The General Inspectorate ensures the coordination and the specialized control of the community public services for emergency, professional and voluntary situations and also ensures, according to legal competencies, the cooperation and representation at national level in the fields of civil protection, fire protection and management of emergency situations.

The professional public emergency public services, hereinafter referred to as professional emergency services, constituted as deconcentrated services, acting as county and Bucharest inspectorates, ensure in the areas of competence the coordination, guidance and control of the prevention and management of the situations of expedite.

Within emergency services, preventive inspections, operational centers and other appropriate emergency management structures are organized, with specialized personnel on risk types, in communications, informatics and public relations.

The operational centers fulfill permanently the functions provided for the national operational center, at the level of the counties, respectively of the municipality of Bucharest. The professional emergency services, through the operational centers, provide the permanent technical secretariats of the County Committees and the Bucharest Emergency Situations Committee.

The public emergency services ensure, according to the legal competencies in the territorial-administrative units in which it operates, cooperation in the fields of civil protection, fire protection and emergency management.

At the level of the ministries, other central public institutions with responsibilities in the management of emergency situations, the municipalities - with the exception of Bucharest, towns and communes - are operational centers for emergency situations, hereinafter referred to as operative centers. At the ministries and central public institutions with attributions and complex support functions in the prevention and management of the emergency situations, provided in Annex no. 1 of the Government Emergency Ordinance No. 21, operational centers are established as permanent structures.

Operational centers shall at all times fulfill the functions provided for the operational centers in the areas of competence of the relevant ministries and central public institutions.

In emergency situations, the unitary coordination at the site of the exceptional event of the action of all the forces set up for the intervention shall be carried out by a person empowered, as the case may be, by the National, Ministerial, County or Bucharest Committees, depending on the nature and gravity of the event and the size of the concentrated force categories, called the commander of the action. The commander of the action may be assisted in carrying out the tasks by the operational group and the advanced operational point, established according to the regulations in force. The organizational structure, the attributions, the functioning and the endowment of the committees, operational centers and operational centers
